ARMY ADVANCE TO HELP KILL VILLA

DECLARATIONS BOTH SLAY LAWLESS

PROPOSALS ARE TO BE RECEIVED

Commission Plan For Settlement Of Disputes Meets With Favor, Is Report.

REBUILDING OF MEXICO DESIRED

U. S. Government Favors Extending Conferences to Cover Wide Scope.

WASHINGTON, D. C., July 22.—If Francisco Villa is really alive and heading a recrudescence of his warfare against the United States, the United States is perfectly willing to assist in his elimination through the use of its military forces if the Carranza government so desires, it was indicated today. The present tendency is to consider dealing with the bandit problem in Mexico a matter of chief concern to the de facto government. It appeared the United States would not insist on sharing in the effort.

Acceptance here of the Carranza government's proposals for a joint commission to settle difficulties between the United States and Mexico appeared certain today. An announcement was expected momentarily.

American government officials believe widening the scope of the discussion would offer opportunity for evolution of a plan that would rehabilitate Mexico.

Probable Commissioners.

In some quarters it is reported that the justice being taken up among the Goethals, who recently resigned as governor of the Panama canal zone, and Frederick Lehmann, formerly secretary general and a member of the A. B. C. mediation conference at Niagara Falls, have been considered as American commissioners. The name of Louis D. Brandeis, associate justice of the supreme court, also is mentioned.

It appears certain that Luis Cabera, Mexican minister of finance, will head the Mexican commission. Mentioned as his probable associates are men of great prominence in Mexican economic life, and it is argued from this that Carranza also realizes that the commission may have a far greater task than the mere settlement of the border disputes.

SUBSCRIPTIONS FOR QUERETARO SUFFERERS RAISED IN EL PASO

Subscriptions for the Queretaro flood sufferers have been raised in El Paso. The Mexican and American residents of El Paso and will be forwarded to the relief committee at Queretaro for the relief of the people of the Hercules district where their homes were washed away and their possessions carried away in the flood.

Money, food or clothing is being asked for by the El Paso committee. The committee is headed by Rev. Lawrence Reynolds, principal of the Lydia Patterson institute at 503 South Florence street. The appeal is made urgent because of the impoverished condition of the flood victims and the inability of the district to render relief to its sufferers from the flood.

A number of subscriptions have been received and the relief will be forwarded Monday to the sufferers. In addition to the relief work on the American side, the Mexican residents of Juarez, including a number of young women, will give a kermesse Sunday afternoon and evening.

GEN. TREVINO SAYS VILLA IS IN DURANGO SIERRAS

Gen. Jacinto Trevino has telegraphed to Gen. Andres Garcia that Villa is believed to be in the sierras of the Durango country and that he is sending three strong columns in pursuit of him with orders to pursue him in whichever direction he may go.

In his message to the Carranza command, Gen. Trevino denied that Villa was going in the direction of Mexico and Gen. Obregon, in a similar message, made the same statement.

WILL TEST TUCSON'S RIGHT TO TAX OUTSIDE SOLICITORS

Tucson, Ariz., July 22.—The right of the city to levy a heavy tax upon agents soliciting for outside firms will be tested in the courts.

Richard Hardy, Tucson agent for a Chicago grocery firm, arrested for failure to take out a license, has offered bail and has employed an attorney to present the matter to a federal court, on the ground that he has been engaged in legitimate interstate commerce.

CAPACITY OF DOUGLAS ICE PLANT IS TO BE DOUBLED

Douglas, Ariz., July 22.—Forty tons, the daily manufacturing capacity of the plant of the Douglas Traction & Light company, is far too small for present needs and much ice has had to be secured from other points this summer. So this fall work will be started on construction of a brand new ice and cold storage plant to cost \$100,000 and have capacity for making 100 tons of ice a day.
